

# Director General of Fertilizers Europe Jacob Hansen to step down

**Brussels, 3 February 2023**

Jacob Hansen commented: *"After 12 years as Director General of Fertilizers Europe I will leave the position end of February. Following a total of 25 years working in the agri-food sector in Brussels, I plan to return to my native country of Denmark where I intend to use my extended experience of EU and the institutions in Brussels, especially the European Parliament and the European Commission".*

*"It has been a great pleasure to be with the European fertilizer industry. I have thoroughly enjoyed working with companies and people from all over Europe. The fertilizer sector is full of very committed and hardworking people, and despite the present difficulties due to the energy crisis, it is a sector of great promise both in terms of green transition and contribution to food security,"* said Jacob Hansen.

The president of Fertilizers Europe, Andreas Steinbüchler from LAT-Nitrogen said: *"I want to thank Jacob Hansen for his excellent leadership and management of the association for many years. He has been an asset to the industry and a pleasure to work with. I wish him all the best in his future activities."*
